# Green / Grow Assist

## Green / Grow Assist

Our automotive systems are fully customisable so can be tailored for a variety of applications.

Our systems can monitor and adjust: Temp, Pressure, Humidity, CO<sub>2</sub>, NPK, O<sub>2</sub>, PH, TDS (EC), Lights, Fans... plus many more.

There are Four seasons associated with this product with preset values which are also adjustable.

Example: the "Flowering Season" has different PH / TDS / Light / temp values etc.. that trigger various automated processes ranging from light adjustment to nutrient distribution.

## PRICES
